Cute grey with white markings female cat with cleft lip, not cleft palate, wandered up the first week of April. She's so friendly. She's currently being boarded at Companion Animal Hospital located on Kuykendahl at Louetta Road, Spring, Tx. @ 281-288-4162. We are calling her Little Bit. Her blood work came back negative for any diseases and tech believes she has already been spayed and she has gained enough weight to have her shots shortly and I'll verify whether or not she has been spayed.

We would like to find her home, if she is missing from the Oakwood Glen community or if there is someone out there who would like to let this cat adopt them, she is a real friendly cat and is very cute.

We believe that she was an indoor cat that got out.

Please feel free to call if you recognize the cat or know the owner or if you have room in your heart for a little love!!

Thanks,

John L. Hill 281-389-1866    [johnhill@oakwoodglen.net](mailto:johnhill@oakwoodglen.net)
